Filed June 21, 2021
File No. 333-257222

Ladies and Gentlemen:

Procaps Group, S.A. (the “**Company**”) previously submitted a draft registration statement on Form F-4 to the Securities and Exchange Commission (the “**SEC**”) on June 21, 2021 (the “**Registration Statement**”).

On behalf of the Company, we are writing to respond to the comments set forth in the comment letter (the “**Comment Letter**”) from the staff of the SEC (the “**Staff**”) dated July 16, 2021. The Company’s responses below correspond to the captions and numbers of those comments (which are reproduced below in bold). Simultaneously with the submission of this letter, the Company is filing Amendment No. 1 to the Registration Statement (the “**Amended Registration Statement**”) in response to the Staff’s comments.

Registration Statement on Form F-4

Letter to Shareholders, page 0

- 1. Given that the Nasdaq listing condition is waivable, please revise the letter to shareholders to prominently disclose that shareholders will not have certainty at the time they vote regarding whether the Holdco Ordinary Shares and Holdco Warrants will be listed on a national securities exchange following the business combination. Also, revise the risk factor on page 76 to reflect that the Nasdaq listing condition may be waived.**

In response to the Staff’s comment, the Company has revised its disclosure in the letter to shareholders and on page 78 of the Amended Registration Statement.

2. Please clearly quantify the transaction consideration and valuation of Procaps in the letter to shareholders and Summary of the Proxy Statement/Prospectus.

In response to the Staff's comment, the Company has revised its disclosure in the letter to shareholders and page 34 of the Amended Registration Statement.

Market and Industry Data, page 1

3. You state that you have not independently verified the third-party data set forth in your prospectus. Please note that you are responsible for the entire contents of the registration statement. As this statement may imply an inappropriate disclaimer of responsibility with respect to third-party information, please delete the statement or revise to specifically state that you are liable for such information.

In response to the Staff's comment, the Company has revised its disclosure on page 1 of the Amended Registration Statement.

Summary of Proxy Statement/Prospectus

Interest of Certain Persons in the Business Combination, page 40

4. Please quantify the aggregate dollar amount and describe the nature of what the sponsor and its affiliates have at risk that depends on completion of a business combination. Include the current value of securities held, loans extended, fees due, and out-of-pocket expenses for which the sponsor and its affiliates are awaiting reimbursement. Provide similar disclosure for the company's officers and directors, if material.

In response to the Staff's comment, the Company has revised its disclosure on pages 21, 41, 91, 107 and 126 of the Amended Registration Statement.

5. In the Summary please quantify the purchase price per share paid by the initial shareholders, as you have done on pages 109 and 226.

In response to the Staff's comment, the Company has revised its disclosure on pages 21, 41, 91, 107 and 126 of the Amended Registration Statement.

Impact of the Business Combination on Holdco's Public Float, page 41

In response to the Staff's comment, the Company has revised its disclosure on page 54 of the Amended Registration Statement.

Risk Factors, page 61

- 8. Please disclose the material risks to unaffiliated investors presented by taking the company public through a merger rather than an underwritten offering. These risks could include the absence of due diligence conducted by an underwriter that would be subject to liability for any material misstatements or omissions in a registration statement.**

In response to the Staff's comment, the Company has revised its disclosure on page 79 of the Amended Registration Statement.

The Holdco Ordinary Shares to be received by Union's shareholders as a result of the Business Combination..., page 87

The Sponsors and Union's executive officers and directors have potential conflicts of interest..., page 88

- 10. Please highlight the risk that the sponsor will benefit from the completion of a business combination and may be incentivized to complete an acquisition of a less favorable target company or on terms less favorable to shareholders rather than liquidate. Please also clarify if the sponsor and its affiliates can earn a positive rate of return on their investment, even if other SPAC shareholders experience a negative rate of return in the post-business combination company.**

In response to the Staff's comment, the Company has revised its disclosure on pages 21, 41, 91, 107 and 126 of the Amended Registration Statement.

Unaudited Pro Forma Condensed Combined Statement of Operations, page 95

- 11. We note that the transaction accounting adjustments under Scenario 1 for the weighted average shares outstanding have been erroneously keyed to adjustment "(6)" rather than adjustment "(5)" on page 101. In further reference to Scenario 2, please reconcile the number of weighted average shares outstanding of non-redeemable ordinary shares in the pro forma combined column to the table on page 102.**

In response to the Staff's comment, the Company has revised its disclosure on pages 99 and 106 of the Amended Registration Statement.

The Background of the Business Combination, page 109

12. Please revise your disclosure throughout this section to provide greater detail as to the background of the transaction, including the material issues discussed and key negotiated terms. The disclosure should provide shareholders with an understanding of how, when, and why the material terms of your proposed transaction evolved and why this transaction is being recommended as opposed to any alternatives. In your revised disclosure, please ensure that you address the following:

- **the material terms for any proposals and subsequent proposals and counter offers;**
- **negotiation of the transaction documents and the parties involved;**
- **valuations; and**
- **at what point other strategic alternatives were eliminated from consideration.**

15. We note the following statement on page 111: "During that same meeting, Mr. Minski explained that Procaps has been capital constrained, which has been the main hamper on growth." Please provide further context to this statement and explain how these capital constraints factored into the prospective financial information provided to and considered by Union's board of directors in determining whether to recommend the transaction to shareholders.

In response to the Staff's comment, the Company has revised its disclosure on page 117 of the Amended Registration Statement.

We also note that the prospective non-financial information regarding Procaps for 2021, 2022, and 2023 on page 127 forecasts far greater than 50 new product launches for each period. Please explain the assumptions underlying these projections. In addition, please clarify the meaning of footnote 1 to the new product launch table.**

In response to the Staff's comment, the Company has revised its disclosure on pages 15, 124, 133, 134, 171, 173, 184 and 195 of the Amended Registration Statement to clarify that (i) the average of over 50 new products per year disclosed in the Registration Statement refers to first time launch products, a subset of "new products" that does not include existing products being sold into a new geographic area and subject to different regulatory authorities, and (ii) the average of new products developed (which includes existing products being sold into a new geographic area and subject to different regulatory authorities) per year is over 150 new products.
