UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

NOTE 1 — ORGANIZATION AND PLAN OF BUSINESS OPERATIONS

Union Acquisition Corp. II (the “Company”) is a blank check company incorporated as a Cayman Islands exempted company on December 6, 2018. The Company was formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities that the Company has not yet identified (a “Business Combination”).

The Company’s efforts to identify a prospective target business will not be limited to a particular industry or geographic region, although the Company intends to focus its search for a target business located in Latin America. The Company is an emerging growth company and, as such, the Company is subject to all of the risks associated with emerging growth companies.

At October 22, 2019, the Company had not yet commenced any operations. All activity through October 22, 2019 relates to the Company’s formation and the initial public offering (the “Initial Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company anticipates it will generate non-operating income in the form of interest income from the proceeds derived from the Initial Public Offering. The Company originally selected December 31 as its fiscal year end. On October 17, 2019, the Company changed its fiscal year end to September 30.

The registration statement for the Company’s Initial Public Offering was declared effective on October 17, 2019. On October 22, 2019, the Company consummated the Initial Public Offering of 20,000,000 units (the “Units” and, with respect to the ordinary shares included in the Units being offered, the “Public Shares”), which includes the partial exercise by the underwriters of their over-allotment option in the amount of 2,500,000 Units, at \$10.00 per Unit, generating gross proceeds of \$200,000,000 which is described in Note 3.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 6,250,000 warrants (the “Private Placement Warrants”) at a price of \$1.00 per warrant in a private placement to two of the Company’s shareholders, generating gross proceeds of \$6,250,000, which is described in Note 4.

Transaction costs amounted to \$4,529,222, consisting of \$4,000,000 of underwriting fees and \$529,222 of other offering costs. In addition, \$1,888,753 of cash was held outside of the Trust Account (as defined below) and is available for working capital purposes.

Following the closing of the Initial Public Offering on October 22, 2019, an amount of \$200,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”) which will be invested in U.S. government treasury bills with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act, which invest only in direct U.S. government treasury obligations, until the earlier of (i) the consummation of the Business Combination or (ii) the distribution of the Trust Account, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (as defined below) (excluding taxes payable on the income earned on the funds held in trust) at the time of the signing of an agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act 1940, as amended, or the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination.

The Company will provide the holders of the public shares (the “Public Shareholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination, either (i) in connection with a shareholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek shareholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The Public Shareholders will be entitled to redeem their Public Shares for a pro rata portion of the aggregate amount then on deposit in the Trust Account. There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants. The ordinary shares subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Initial Public Offering, in accordance with Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.”

UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

The Company will proceed with a Business Combination only if it has net tangible assets of at least \$5,000,001 upon consummation of the Business Combination and, in the case of a shareholder vote, a majority of the outstanding ordinary shares voted are voted in favor of the Business Combination. Notwithstanding the foregoing, if the Company seeks shareholder approval of the Business Combination and the Company does not conduct redemptions pursuant to the tender offer rules, a Public Shareholder, together with any affiliate of such shareholder or any other person with whom such shareholder is acting in concert or as a “group” (as defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares. In connection with any initial Business Combination, the holders of the Company’s ordinary shares issued prior to the Initial Public Offering (the “Initial Shareholders”) and officers and directors and their affiliates have agreed (i) to vote any ordinary shares owned by them in favor of a Business Combination if a vote is held to approve the Business Combination, (ii) not to redeem any of their ordinary shares in connection therewith or any amendment to the Company’s charter documents prior to the consummation of a Business Combination and (iii) not to sell any of their ordinary shares to the Company in a tender offer.

The Company will have until April 22, 2021 to complete a Business Combination (the “Combination Period”). If the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay liquidation expenses) divided by the number of then outstanding Public Shares, which redemption will completely extinguish the rights of the Public Shareholders as shareholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining shareholders and its Board of Directors, dissolve and liquidate, subject in each case to the Company’s obligations under Cayman Islands law to provide for claims of creditors and the requirements of other applicable law. The proceeds deposited in the Trust Account could, however, become subject to claims of creditors. Therefore, the actual per-share redemption amount could be reduced.

In the event of a liquidation, the Public Shareholders will be entitled to receive a full pro rata interest in the Trust Account (less up to \$100,000 of interest to pay liquidation expenses and which interest shall be net of taxes payable). There will be no redemption rights or liquidating distributions with respect to the Public Warrants (as defined in Note 3), the Founder Shares (as defined in Note 4) or the Private Placement Warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

In order to protect the amounts held in the Trust Account, Union Group International Holdings Limited (“Union Group”), one of the Company’s initial shareholders and an affiliate of a director of the Company, has agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account. This liability will not apply with respect to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the Trust Account or to any claims under the Company’s indemnity of the underwriters of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, Union Group will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that Union Group will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company’s independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Basis of Presentation

The accompanying financial statement is presented in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”).

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and shareholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

Use of Estimates

The preparation of the financial statement in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statement.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statement, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Cash held in Trust Account

At October 22, 2019, the assets held in the Trust Account were held in cash.

Ordinary shares subject to possible redemption

The Company accounts for its ordinary shares subject to possible redemption in accordance with the guidance in Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.” Ordinary shares subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable ordinary shares (including ordinary shares that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, ordinary shares are classified as shareholders’ equity. The Company’s ordinary shares features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, at October 22, 2019, ordinary shares subject to possible redemption is presented as temporary equity, outside of the shareholders’ equity section of the Company’s balance sheet.

Offering costs

Offering costs consist of underwriting, legal, accounting and other expenses incurred through the Initial Public Offering that are directly related to the Initial Public Offering. Offering costs amounting to \$4,529,222 were charged to shareholders’ equity upon the completion of the Initial Public Offering.

Income Taxes

The Company accounts for income taxes under ASC Topic 740, “Income Taxes,” which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company’s management determined that the Cayman Islands is the Company’s only major tax jurisdiction. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of October 22, 2019, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The Company’s tax provision is zero because the Company is incorporated in the Cayman Islands with no connection to any other taxable jurisdiction. The Company is considered to be an exempted Cayman Islands company and is presently not subject to income taxes or income tax filing requirements in the Cayman Islands or the United States. As such, the Company has no deferred tax assets.

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which at times, may exceed the Federal depository insurance coverage of \$250,000. At October 22, 2019, the Company had not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

Recent Accounting Pronouncements

In July 2017, the FASB issued Accounting Standards Update ("ASU") 2017-11, Earnings Per Share (Topic 260), Distinguishing Liabilities from Equity (Topic 480) and Derivatives and Hedging (Topic 815): Part I. Accounting for Certain Financial Instruments with Down Round Features; Part II. Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception. Part I of this update addresses the complexity of accounting for certain financial instruments with down round features. Down round features are features of certain equity-linked instruments (or embedded features) that result in the strike price being reduced on the basis of the pricing of future equity offerings. Also, entities must adjust their basic Earnings Per Share ("EPS") calculation for the effect of the down round provision when triggered (that is, when the exercise price of the related equity-linked financial instrument is adjusted downward because of the down round feature). That effect is treated as a dividend and as a reduction of income available to common stockholders in basic EPS. An entity will also recognize the effect of the trigger within equity. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company adopted this guidance during the period ended October 22, 2019. The adoption of this guidance enabled the Company to record the warrants as equity instruments and is not expected to have a material impact on the Company's financial position, results of operations, cash flows or disclosures moving forward until a trigger event occurs. Part II of this update addresses the difficulty of navigating Topic 480, Distinguishing Liabilities from Equity, because of the existence of extensive pending content in the FASB Accounting Standards Codification. This pending content is the result of the indefinite deferral of accounting requirements about mandatorily redeemable financial instruments of certain nonpublic entities and certain mandatorily redeemable noncontrolling interests. The amendments in Part II of this update are not expected to have an impact on the Company.

Management does not believe that any other recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statement.

NOTE 3 — INITIAL PUBLIC OFFERING

Pursuant to the Initial Public Offering, the Company sold 20,000,000 Units, at a purchase price of \$10.00 per Unit, which includes the partial exercise by the underwriters of their over-allotment option in the amount of 2,500,000 Units at \$10.00 per Unit. Each Unit consists of one ordinary share and one redeemable warrant ("Public Warrant"). Each Public Warrant entitles the holder to purchase one ordinary share at a price of \$11.50 per share (see Note 6).

NOTE 4 — RELATED PARTY TRANSACTIONS

Founder Shares

In December 2018, the Company issued an aggregate of 4,312,500 ordinary shares ("Founder Shares") for an aggregate purchase price of \$25,000. In August 2019, the Company effected a share capitalization pursuant to which the Company issued an additional 718,750 ordinary shares (see Note 7). As a result, there were 5,031,250 shares outstanding, of which an aggregate of up to 656,250 shares were subject to forfeiture by the Initial Shareholders to the extent that the underwriters' over-allotment was not exercised in full or in part, so that the Initial Shareholders would own 20% of the Company's issued and outstanding shares after the Initial Public Offering. As a result of the underwriters' election to partially exercise their over-allotment option, 31,250 Founder Shares were forfeited and 625,000 Founder Shares are no longer subject to forfeiture. Thus, at October 22, 2019, there are 5,000,000 ordinary shares to the Initial Shareholders outstanding.

The Initial Shareholders have agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier of (i) one year after the date of the consummation of a Business Combination and (ii) the date on which the closing price of the Company's ordinary shares equals or exceeds \$12.50 price per share (as adjusted for share splits, share dividends, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing 150 days after a Business Combination, or earlier if, subsequent to a Business Combination, the Company consummates a subsequent liquidation, merger, share exchange or other similar transaction which results in all of the Company's shareholders having the right to exchange their ordinary shares for cash, securities or other property.

UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

Private Placement

Simultaneously with the closing of the Initial Public Offering, certain of the Initial Shareholders purchased an aggregate of 6,250,000 Private Placement Warrants at a price of \$1.00 Per Private Placement Warrant for an aggregate purchase price of \$6,250,000. Each Private Placement Warrant is exercisable to purchase one ordinary share at an exercise price of \$11.50. The proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds of the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants (i) will not be redeemable by the Company and (ii) may be exercised for cash or on a cashless basis, so long as they are held by the initial purchasers or any of their permitted transferees. If the Private Placement Warrants are held by holders other than the initial purchasers or any of their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by the holders on the same basis as the Public Warrants. In addition, the Private Placement Warrants may not be transferable, assignable or salable until 30 days after the consummation of a Business Combination, subject to certain limited exceptions.

Promissory Note — Related Party

The Company issued an unsecured promissory note to Union Group on December 19, 2018, pursuant to which the Company may borrow up to aggregate principal amount of \$200,000 (the “Promissory Note”). The Promissory Note is non-interest bearing and payable on the earlier of (i) December 31, 2019, (ii) the consummation of the Initial Public Offering or (iii) the date on which the Company determines not to proceed with the Initial Public Offering. As of October 22, 2019, there was \$175,000 outstanding under the Promissory Note. The Promissory Note is currently due on demand.

Support Services

The Company entered into an agreement, commencing on October 17, 2019 through the earlier of the consummation of a Business Combination or the Company’s liquidation, to pay an affiliate of one of the Company’s directors a monthly fee of \$10,000 for office space, utilities and administrative support.

The Company also intends to pay to the Company’s Chief Operating Officer a \$10,000 per month consulting fee commencing on October 17, 2019 through the earlier of the consummation of a Business Combination or the Company’s liquidation.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Initial Shareholders, the Company’s officers, directors or their affiliates may, but are not obligated to, loan the Company funds, from time to time or at any time, as may be required (“Working Capital Loans”). Each Working Capital Loan would be evidenced by a promissory note. The Working Capital Loans would either be paid upon consummation of a Business Combination, without interest, or, at the holder’s discretion, up to \$1,500,000 of the Working Capital Loans may be converted into warrants at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. In the event that a Business Combination does not close, the Company may use a portion of the working capital held outside the Trust Account to repay such loaned amounts, but no proceeds from the Trust Account would be used for such repayment. There are no borrowings under the working capital loans to date. As of October 22, 2019, no Working Capital Loans were outstanding.

NOTE 5 — COMMITMENTS AND CONTINGENCIES

Registration Rights

Pursuant to a registration rights agreement entered into on October 17, 2019, the holders of the Founder Shares, the Private Placement Warrants (and their underlying securities) and the warrants that may be issued upon conversion of the Working Capital Loans (and their underlying securities) are entitled to registration rights. The holders of a majority of these securities will be entitled to make up to two demands that the Company register such securities. The holders of the majority of the Founder Shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these ordinary shares are to be released from escrow. The holders of a majority of the Private Placement Warrants and warrants issued in payment of Working Capital Loans made to the Company (or underlying securities) can elect to exercise these registration rights at any time after the Company consummates a Business Combination. In addition, the holders will have certain “piggy-back” registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company granted the underwriters a 45-day option to purchase up to 2,625,000 additional Units to cover over-allotments at the Initial Public Offering price, less the underwriting discounts and commissions. In connection with the closing of the Initial Public Offering on October 22, 2019, the underwriters elected to partially exercise their over-allotment option to purchase 2,500,000 Units at a purchase price of \$10.00 per Unit.

The Company will pay this entity an aggregate cash fee for such services upon the consummation of a Business Combination in an amount equal to \$4,200,000 (exclusive of any applicable finders' fees which might become payable).

NOTE 6 — SHAREHOLDER'S EQUITY

Preference Shares

The Company is authorized to issue 1,000,000 preference shares with a par value of \$0.0001 per share with such designation, rights and preferences as may be determined from time to time by the Company's Board of Directors. At October 22, 2019, there were no preference shares issued or outstanding.

Ordinary Shares

The Company is authorized to issue 150,000,000 ordinary shares, with a par value of \$0.0001 per share. Holders of the ordinary shares are entitled to one vote for each ordinary share. At October 22, 2019, there were 5,326,940 ordinary shares issued and outstanding, excluding 19,673,060 ordinary shares subject to possible redemption.

Warrants

The Public Warrants will become exercisable on the later of (a) the completion of a Business Combination or (b) 12 months from the closing of the Initial Public Offering. Each Public Warrant entitles the holder to purchase one ordinary share at a price of \$11.50 per share. In addition, if (x) the Company issues additional ordinary shares or equity-linked securities for capital raising purposes in connection with the closing of an initial Business Combination at an issue price or effective issue price of less than \$9.20 per share (with such issue price or effective issue price to be determined in good faith by the Company's board of directors and, in the case of any such issuance to the Company's Initial Shareholders or their affiliates, without taking into account any founders' shares held by the Initial Shareholders or their affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of the initial Business Combination on the date of the consummation of the initial Business Combination (net of redemptions), and (z) the volume weighted average trading price of the ordinary shares during the 20 trading day period starting on the trading day prior to the day on which the Company consummates its initial Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price described below will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the Newly Issued Price.

Notwithstanding the foregoing, no Public Warrants will be exercisable for cash unless the Company has an effective and current registration statement covering the ordinary shares issuable upon exercise of the Public Warrants and a current prospectus relating to such ordinary shares. Notwithstanding the foregoing, if a registration statement covering the ordinary shares issuable upon exercise of the Public Warrants is not effective within a specified period following the consummation of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when the Company shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to the exemption provided by Section 3(a)(9) of the Securities Act, provided that such exemption is available. If that exemption, or another exemption, is not available, holders will not be able to exercise their warrants on a cashless basis. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

UNION ACQUISITION CORP. II
NOTES TO FINANCIAL STATEMENT

The Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- at any time after the warrants become exercisable;
- upon not less than 30 days' prior written notice of redemption;
- if, and only if, the reported last sale price of the Company's ordinary shares equals or exceeds \$18.00 per share (subject to adjustment) for any 20 trading days within a 30-trading day period ending on the third business day prior to the notice of redemption to the warrant holders; and
- if, and only if, there is a current registration statement in effect with respect to the ordinary shares underlying such warrants and a current prospectus relating to those shares is available throughout the 30-day redemption period.

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement.

The exercise price and number of ordinary shares issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of ordinary shares at a price below its exercise price. The Company has agreed to use its best efforts to have declared effective a prospectus relating to the ordinary shares issuable upon exercise of the warrants and keep such prospectus current until the expiration of the warrants. However, if the Company does not maintain a current prospectus relating to the ordinary shares issuable upon exercise of the warrants, holders will be unable to exercise their warrants for cash and the Company will not be required to net cash settle or cash settle the warrant exercise. There will be no redemption rights upon the completion of a Business Combination with respect to the Company's warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

NOTE 7 — SUBSEQUENT EVENTS

The Company evaluated subsequent events and transactions that occurred after the balance sheet date through the date that the financial statement was issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statement.
